

BLS Preconference – Year 3

Dan Limmer, EMT-P
Owner
Limmer Creative

Guy Peifer; Paramedic, CIC, RF/PC
Lieutenant
Yonkers Fire Department

This is the third year content for the New York State BLS CME Recert Program. Each year features 8 hours of continuing education aligned with the requirements of the New York State Department of Health, Bureau of EMS and Trauma for recertification under the 3-year continuing educational program. The CME Recertification Program, previously called the Pilot Recertification Program (when the program was a Pilot Project), allows an EMT who is in continuous practice, demonstrates competency and completes appropriate continuing education, to renew their certification without taking a certification exam. Attending the BLS Preconference each year provides an EMT with all 24 hours of the required classroom content.

Daniel Limmer is an EMT-Paramedic and police officer who has been involved in EMS and Law Enforcement for more than 35 years. He is a Lecturer in the EMS degree program at Central Washington University in Ellensburg, WA and an EMS instructor/coordinator in Maine. Dan speaks at EMS conferences around the world. He is a co-author of several textbooks including Emergency Care, EMR Complete, the education standards Transition Series for EMT, AEMT and Paramedic, and EMPACT. He develops smart phone and web-based review apps for the emergency service fields through his company, Limmer Creative LLC.

Guy Peifer is a Paramedic and Fire Lieutenant with the Yonkers Fire Department, assigned to the Special Operations Command, where he oversees the EMS program. Guy has been the paramedic program director for two City University of New York Colleges and is now the director of YFD's new paramedic program. As demonstrated during his discussions, patient care is a priority and educating those with a desire to better themselves his one of his passions. Join him in a riveting, short discussion you will not want to miss.

Presentation Outline:
