

Amazon Business Account Priority Access to COVID-19 Supplies

If your EMS agency is having trouble acquiring PPE supplies Amazon has a COVID-19 section for organizations on the front lines. They have set aside a quantity of PPE but you need to register for access and have an Amazon Business Account and a CCN (CMS Certification Number) or NPI (National Provider Identifier). Click [HERE](#) for more information.

The following customers with a free Amazon Business account can purchase COVID-19 supplies:

- U.S. government organizations including federal agencies protecting public health and safety, all 50 states, cities, counties, special districts, police and fire departments.
- U.S. healthcare organizations including hospitals, **emergency medical services**, senior care facilities, home health care, physician practices and ambulatory care centers.

To set up an Amazon Business Account and identify the personnel that should be authorized to make purchases, see the [Getting Started Guide](#).
