

# Pulse Check Youth Education Day

Saturday – October 8, 2022

**8:00 - 8:45** - Lecture # 1 - Case Study Approach to Airway

No airway? No patient... Learn about different techniques for airway management in any situation to enhance your ability to ventilate a patient and improve outcomes.

*Mark Deavers - CIC, EMT-P*

**9:00 - 9:45** - Lecture # 2. - Down and Dirty Trauma - “Trauma **IS** a BLS Skill”

An in-depth look at trauma and trauma mechanisms and why BLS beats ALS almost every time...

*Melissa Brook - CIC, FP-C*

**10:00- 10:45** - Lecture # 3 - Real World Scene Safety - “BSI, Is the Scene Safe?... Are you sure?”

Tips and hard-earned lessons to improve situational awareness and get your crew home.

*Michael Bennett - EMT-P*

**11:00 - 11:45** - Lecture # 4 - “Improv” EMS

Let’s explore how to treat patients you may encounter while “off-duty” with the tools and equipment available in your everyday life.

*Josh LaDuke - CIC, EMT-P*

**11:45-13:00** Break for Lunch

**13:00 - 16:45** - Breakout Skills Stations

Rotate through a variety of interactive and hands-on stations to beat the “after-lunch-snooze”! Sessions will include airway management with a SALAD Mannikin, High-Fidelity Sim Mannikin scenarios, Moulage Tutorials, and more! (Informal attire that may not survive is recommended... We’re going to get messy!!!)
